More control, more comfort

With **evohome**, you'll discover ways to manage your heating more effectively – and make savings on your heating bills.

- Honeywell Zoning Technology – Delivering heat into your home, in the right place, at the right temperature and at the right time gives the perfect balance of comfort and control, whilst not wasting energy or money.
- Access via Mobile devices – Enabling control whether you are relaxing at home or the other side of the world, **evohome** can be accessed via your mobile device anytime you choose. (optional)
- Intelligent controls that are simple to use – A clear and simple to use touch screen interface provides access to your Smart Honeywell evohome Controller

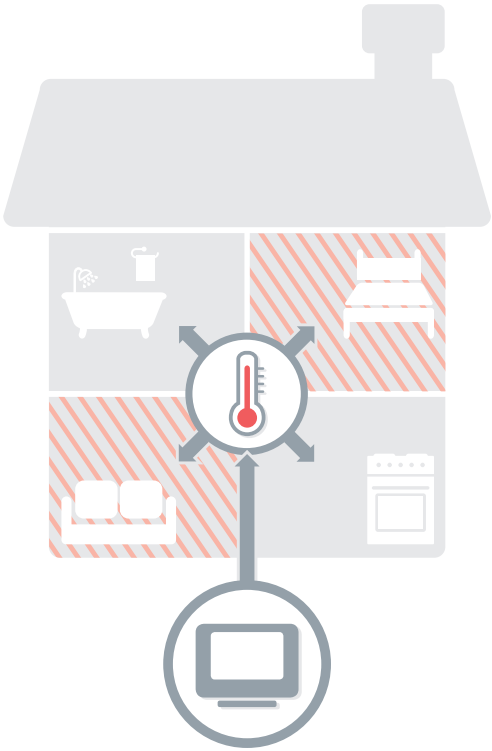
Working with zones

A zone can be one room or a number of rooms. For example you might want to link all of your bedrooms as one zone and control them as one unit. Or if you have several radiators in one room or open space, they can be grouped into a zone so you don't need to control them individually.



Getting the most from **evohome**

Access evohome from Anywhere

The **evohome** smartphone or tablet app lets you control your heating wherever you are. So, if you're away from home and need to turn your heating off or on, or up or down, you are always in control.

To manage **evohome** with your mobile device you'll need a Honeywell Internet Gateway device. If this isn't in the pack you bought, visit **evohome.honeywell.com** to find out more.

- Connect your Remote Access Gateway to the **evohome** Controller – follow the instructions in the installation guide
- Set up a mobile user account – go to **mytotalconnectcomfort.com** and follow the instructions there
- Download the app – visit the Apple app store, or Google Play for Android phones

You can also set the AWAY Quick Action for between 1 and 99 days by pressing and holding the button to set the timer

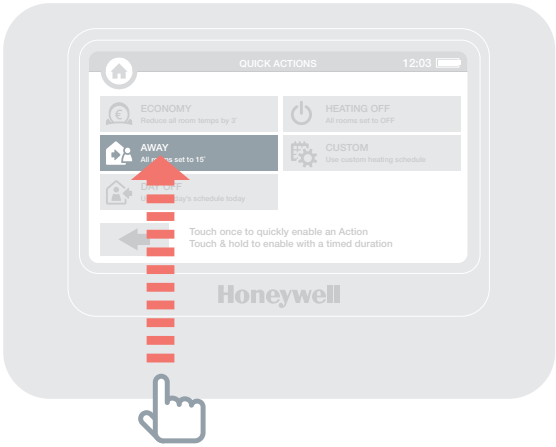
To cancel the Quick Action press the cancel button on the home screen

I want to turn the heating down while I am away from home for more than a day

1. Press Quick Actions
2. Press AWAY

This lowers the temperature in all zones to 15 degrees.

2



You can also set the DAY OFF Quick Action for between 1 and 99 days by pressing and holding the button to set the timer

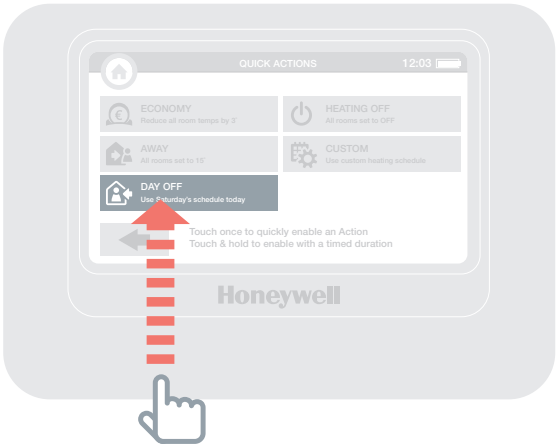
To cancel the Quick Action press the cancel button on the home screen

I have a day off and stay at home

1. Press Quick Actions
2. Press DAY OFF

This action is useful if you're staying at home on a day when you would normally be out.

2



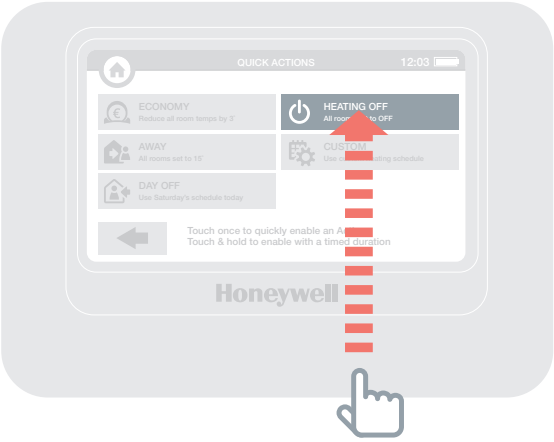
Living with evohome

To cancel the Quick Action press the cancel button on the home screen

I want to turn the heating off in every zone

1. Press Quick Actions
2. Press HEATING OFF

2



The settings menu

The settings menu lets you manage your evohome Controller and personalise your settings

- Device settings – change the date, time and language, control your display settings and set a security passcode (default 0000)
- Room settings – change the name of a room, change the display order of rooms on the home screen, or reset a room schedule to the original settings
- Quick actions – personalise the settings used by the quick action functions

Batteries

evohome Controller batteries

The **evohome** Controller uses rechargeable batteries which should not need to be replaced. If the batteries need to be charged place the **evohome** Controller back on a powered Table Stand or Wall Bracket.

If necessary, replace with AA 1.2V Ni-MH 2000-2400mAh batteries only.
